

Please leave Wisconsin's DO NOT CALL List ALONE!!

In my job I have to answer the phone all day long. The last thing I want to do is come home and be interrupted continuously by unwanted calls. I have already lived through this before Wisconsin's DO NOT CALL List was put in place. Please do not make my life go backwards because of some banking association or other associations that have no regard for my privacy. It has made my life and the life of my family much more enjoyable and pleasurable with the list in place. We value our time together and don't need to be interrupted by someone trying to cram something down our throats. PLEASE LEAVE IT ALONE!! Thank you.
